Greetings,

Attached is the just released Department of Education allocation tables. The Fy11-12 allocation for adult education begins on line 399 and includes state grants and national programs. We had hoped to maintain last years additional allocation that accommodated the funding formula error but that did not happen. However, as you look over the other education program allocations you will note that adult education did much better than many.

Thank you for keeping your members of Congress informed about the need, impact and success of your adult education programs. That awareness is going to be even more important in the next three months as Congress deliberates the FY 12 allocations in light of the August 2 deadline to resolve the Debt Ceiling. If the debt ceiling is not raised, drastic cuts will ensue.

Keep up the good work. Let us know when we can help.
