ISO Research Minded Colleagues

If you could have research about your programs, students, teachers, stakeholders, services, etc., what would you like to know?

NAEPDC is establishing a Research Workgroup to work with Dr. Alisa Belzer at Rutgers University and perhaps others in 1) applying for IES partnership grants, 2) applying for other research grants, and 3) designing and conducting research for and with state directors and state staff.

Goal: The goal of the Research Workgroup is to provide data that state directors and state staff need to make decisions about their work.

Role: To that end we are in search of (ISO) state directors and state staff who would be interested in helping think through research designs, crafting proposals, reviewing and analyzing results, and making sense out of implications for state policy and practice.

Commitment: One conference call per month for twelve months (options to re up if you like)

Apply: If you are interested, click on the URL below to sign up.
